

Department of Economics – AI Statement

This form is for students to declare their use of AI in submissions at the Department of Economics. Please complete this form and incorporate it into the overall pdf document that you submit to Inspira (or zip folder if that is the submission format).

Important: If the Course Convenor’s approach to the use of AI differs from the approaches stated below (see your course Canvas page), please note that their stated rules on the use of AI take precedence and will be applied by the Exam Board in any case where academic misconduct is suspected.

Candidate Number: 1096499

Submission Item: Thesis

Please tick all that apply below on your use of AI for this submission:

What LLM did you use? (e.g. ChatGPT Edu)	ChatGPT, Google Gemini, Claude
Brainstorming ideas	☐
Surveying literature relevant to the area of study	☒
Gathering data and generating code to implement estimation techniques in econometric work	☒
Generating diagrams, charts and results tables for inclusion in this submission	☒
Proof-reading and obtaining feedback on text and/or code that you have written for this submission	☒
I did not use AI at all for this submission	☐

If you used AI in a different way from the options listed above, or the convenor’s rules for use of AI differs, please indicate below how AI was used (if at all)

Obtaining feedback on the theoretical model, to understand whether proposed ideas were consistent with the policy framework.
